A creative problem-solving organization focused on collaboration & action

Thobson is a global IT solutions company with over 18+ years of experience and about 40+ employees. We provide full-cycle services in the areas of networking, design & development, infrastructure integration solutions, software development, web-based enterprise solutions, web applications, portal development. We combine our solid business domain experience, technical expertise, profound knowledge of latest industry trends and quality-driven delivery model to offer progressive, end-to-end solution.

Our DNS Failover & Systems Monitoring

ensures that the moment we detect that your site is unavailable, your traffic will be re-routed to a backup server or page. We can also automatically re-route traffic back to the failed services once they are operational again.

SUPERIOR CONNECTIVITY

Our redundant evolving network is built upon homologous private connections and access points to public networks. It had been elaborated with long term goals in mind in terms of network solutions. Our network is linked to important upstream suppliers and to over 20 exchange partners which assures a constant Internet connection, superior diverse routing and the bottom line: increased Internet efficiency. Your site's availability is guaranteed to be 99.9% without any loss of packets or single point of failure.

BUDGET OPTION UNMETERED NETWORK

Thobson offers dedicated server clients and co-location clients the possibility to choose an unmetered 10Mbps or 100Mbps port on a part of its network called the Unmetered Budget Network. Offers identified by that name are connected on a part of our network where we add Cogent™ as the priority transit provider. The uptime guarantee of the Unmetered Budget Network is of 99.5% instead of 99.9%.

Network Infrastructure and Offices

44%

44% lower latency compared to native Border Gateway Protocol (BGP)

35ms

35 ms less latency per packet round trip time compared with sub-optimal carrier routes

99%

99% of routes chosen by MIRO deemed best path compared with 29% chosen by BGP alone

4x

Nearly four times less latency variability than stand-alone carriers or self-managed IP "blends"

Barracuda Spam Firewall

Powerful, Complete Solution

- IP Reputation Analysis
- Sender Authentication
- Recipient Verification
- Spam Fingerprint Check
- Virus Scanning
- Rule-based Scoring
- Domain Level Quarantine

DNS Auto Failover System

DNS Failover & Systems Monitoring

- Mail Server MX Masking
- Multiple Network Route Selection
- Auto-Spooling
- Mail Bagging
- Cloud Spam Filtering
- Secondary MX Redundancy
- Cluster Environment

Supporting Platforms

Solutions you need

Thobson™ offers a high quality network, directly linked by BGP to Peer1 Networks, Sprint/GT and Teleglobe, offering excellent performance for game servers, web servers and all applications that require high throughput and no loss of packets.

In addition to being connected to a high quality network, Thobson™ shares the savings brought on by its buying power by offering prices and bandwidth allocations defying all competition. Who other than Thobson™ connects you to a minimum 10Mbps port and offers monthly traffic allocations going up to 2000GB?

TELEGLOBE

PEER 1 NETWORK

Sprint Canada group telecom
